Mr. Jason Shelton I am writing this letter of appreciation to let you know how much I appreciate the outstanding customer service you did in developing and publishing my new business website. I want to thank you for creating the design and layout of the webpage, paying attention to detail, your creativity, patience and setting up time to communicate with me every step of the way until the job was done.

I am so amaze how you showcased my book title "Awake" Financial Freedom published by Page Publishing, the press release, video trailer, and radio interview on my business website. I have no doubt, this will have a direct impact on driving my books sells and simultaneously displaying the phenomenal job Page Publishing did in transforming my manuscript into a finish book and marketing my book. I will forever be grateful to Page Publishing.

I will forward a copy of this letter of appreciation to *Lana Beers my Publishing Coordinator* and *Diana Botteom, staff member at Page Publishing*, so they can have an opportunity to check out the business website www.parrissassociate.com

Sincerely from,

Marie Holliday
